23 October 2016

Competition

Who can use it ?

Anyone !

- Diabetics
- Athletes
- People who want to

You have information about the **ingredients** and **calories**

Monitor your **daily calory intake** with gentle reminders

For example :

Baked or Broiled Fish

Per 972g - Calories: 1225kcal | Fat: 33.44g | Carbs: 3.21g | Protein: 213.27g

Woah! that's 1225 don't you think that's a little too much for today?

Could I have some fish?

Future updates

- ◇ Expand to other nutritional properties: proteins, fat, salt.
- ◇ Enable multiple goals, to fit our users desiderata
- ◇ Allow other forms of input such as:
 - Voice
 - Pictures
 - QR code scanning
- ◇ Introduce dashboards for intuitive visualisation
- ◇ Suggest meals
- ◇ And much more ...
